

We're the missing layer between your bookkeeper and an internal finance team.

FinFixers isn't a bookkeeper and isn't an interim hire. We standardise your entire finance operation so finance keeps running while you keep growing — fixed price, fixed monthly rhythm, and full visibility.

Day 18 → day 5

Numbers ready on a fixed day, not late in the month

16 hours → 2 hours

Founder time on finance per month

€10K → €1.5K

Cheaper than an internal team, with more structure and insight

HOW IT WORKS

→ **One fixed way of working**

Standardised and tool-led

→ **Always up to date**

Invoices, bank and payments run weekly

→ **Numbers on a fixed day**

Every month, without having to ask

→ **You steer, we run it**

Free of the execution, you stay in control

THE PROBLEM

You're stuck between two worlds that don't fit.

You've outgrown your bookkeeper

Your bookkeeper does admin and tax. No monthly close, no cashflow, no receivables management, no reporting rhythm. Everything above that lands on you.

You need several finance disciplines

Invoice processing, receivables, bank reconciliation, cashflow and reporting are separate roles. You won't find them in one person, and you can't build them quickly.

An internal finance team is too expensive

€100K–€200K per year, only realistic above €10M in revenue. That budget belongs in growth, not in finance overhead.

"Finance went from weekly chaos to a rhythm that just runs."

— Founder, healthcare company · active FinFixers client

THIS FITS YOU IF

- ✓ You spend evenings or weekends on invoicing or reporting in Excel
- ✓ You increasingly have to chase your bookkeeper for information
- ✓ Chasing receivables slips because no one owns it
- ✓ You estimate cashflow on gut feel, not current numbers
- ✓ You make important decisions on gut feel because current numbers are missing
- ✓ You want to grow but finance keeps getting in the way

INVESTMENT

Fixed price. Clear boundaries. No surprises.

STANDARD

€1,500 per month excl. VAT

1 entity · invoice processing · receivables management & follow-up · payables management · bank reconciliation · fixed monthly close · BI dashboard · cashflow · monthly review

Onboarding €3K–€5K one-time · Blueprint setup including clean-up, optimisation, portals, bank feeds and reporting. After that, a fixed monthly price. No hourly billing.

Less than the cost of one part-time finance employee — and it includes every discipline.

WHAT YOU GET

Your own finance team. Without the team.

- ✓ Invoices sent and receivables chased so you get paid without doing the chasing
- ✓ Suppliers paid on time, with nothing for you to watch over
- ✓ Bank always up to date, payments prepared weekly
- ✓ Fixed monthly close, numbers on the same day every month
- ✓ Cashflow overview and live insight into what's coming in and outstanding
- ✓ One review call a month: you decide, we run it

BI & REPORTING — INCLUDED AS STANDARD

- Management dashboard
- Budget vs. actuals
- Cashflow visibility
- AR/AP aging insight
- Monthly summary
- Operational signals

Stop running finance. Start running your business.
